## ✅ Before you check out (11:00)

- [ ] Turn off the AC, lights and cooktop
- [ ] Close the windows (incl. the dryer-duct window)
- [ ] Leave sorted trash on the kitchen-side balcony
- [ ] Make sure the door is locked when you leave

# House rules · Safety

- 👥 Only registered guests may stay. Max 9 people
- 🚭 No smoking indoors or on the balcony
- 🌙 Please keep quiet after 10 pm
- 🎉 No parties or events
- 🐾 No pets
- 📹 CCTV only outside the front door. None inside

## Important

⚡ **Never use all 3 cooktop burners at once**
With the air conditioner on, use **only ONE burner**. Using too much power at once can cut the electricity in the whole house.

🔥 **Open the window before using the gas dryer**
**Open the window where the dryer's exhaust duct is connected** before you start, and keep it open until drying is finished.

🔒 **When you go out, always check the front door is locked**
After closing the door, **pull the handle to make sure it is locked**. If the door is not fully shut, it will not lock.

## Trash & recycling

📍 **Leave everything on the kitchen-side balcony**

### Recycling

Sort into the recycling bins on the balcony

2. **Choose the amount** — Half Cup, One Cup or Continuous.
3. **Press Dispense** (water drop). It stops by itself — or press it again to stop.

### ↕ Adjustable spout

Grip the ring and slide it **down** for a short cup, **up** for a tall bottle.

## 3 Examples — just follow the buttons

### ☕ Drip-bag coffee

(in your room)

1. Hang the opened drip bag on your mug.
2. Press **Boiling Water** 고온수 then **Half Cup** 반컵.
3. Press **Dispense** 💧 (press again to pause if the bag fills).
4. Repeat 2–3 once more (≈ 1 mug).

### 🥛 Warm water to drink

1. Press **Hot Water Temp** 온수온도 until the display shows **40** or **50 °C**.
2. Press **One Cup** 한컵.
3. Press **Dispense** 💧.

Green tea: choose **80 °C** the same way.

### 🍜 Cup noodles · Tea

1. Press **Boiling Water** 고온수.
2. Noodles: press **Continuous** 연속.
   Tea: press **One Cup** 한컵.
3. Press **Dispense** 💧. For noodles, press it again at the fill line.

# Drip-bag coffee

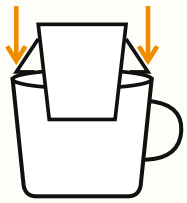

HAMAYA Special Blend Gold · 1 bag = 1 cup (about 140 ml)

**1**

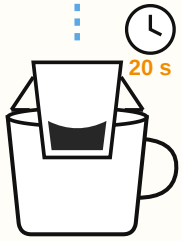

Tear off the top along the line.

**2**

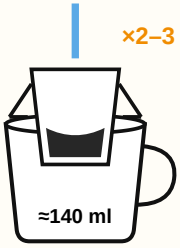

Open the bag and hang the paper arms on your cup.

**3**

Pour a little hot water to wet the coffee. Wait 20 seconds.

**4**

Pour slowly in 2–3 rounds, up to about 140 ml.

**5**

Remove the bag. Enjoy!

## ♨️ Hot water from the water purifier

⑤ **Boiling water** → ⑥ **Half cup** → ③ **Dispense**. Press ③ again to pause while the coffee drips. (Numbers match the water purifier page)

## ☕ Tips

- **Stronger:** less water (about 120 ml) · **Milder:** more (about 160 ml)
- Pour slowly into the center so the bag doesn't overflow.
- Put the used bag in the general-waste bag.

⚠ Boiling water — be careful of burns. Keep the cup on a flat, stable surface.

# Heating & Hot Water Guide

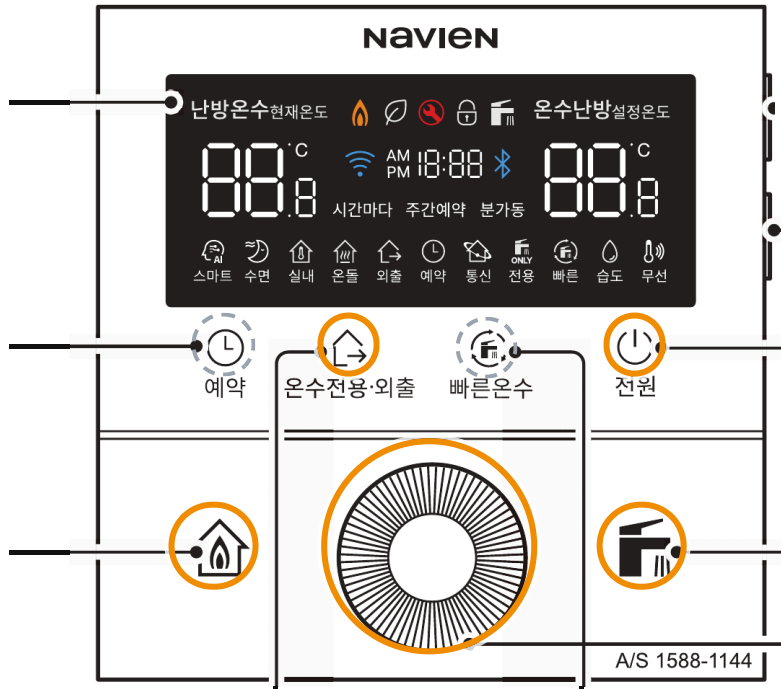

Floor heating (ondol) & hot water — the controller on the wall

Navien room controller · NR-65D

Korean in **boxes** = text printed on the controller

## 1 The controller — buttons you need

**Highlighted** = buttons you will use

### Display

Left number: current temperature
Right number: the setting you change

### Light / Sound 밝기/음량

Side button. Not needed.

### Schedule 예약

Not needed.

### Power 전원

Turns the controller on / off.

### Heating 난방

Press, then turn the dial.
Hold 1 sec: Room / Floor mode.

### Hot Water 온수

Press, then turn the dial.

### Dial 다이얼

Turn to set the temperature.

### Away / Hot water only 온수전용·외출

Going out? Heating pauses, hot water still works.

### Quick Hot Water 빠른온수

Not available in this home.

## 2 How to — just follow the buttons

### Warm up the room

1. Screen off? Press **Power** 전원.
2. Press **Heating** 난방 (house with flame).
3. Turn the **Dial** to the temperature you want. It saves by itself after a few seconds.

The lit icon on the screen shows the mode:
실내 **Room** mode — the room air temperature (10–40 °C). **20–24 °C** is comfortable.
온돌 **Floor** mode — the heating-water temperature (30–65 °C). **40–50 °C** is usually enough.

### Change the hot-water temperature

1. Press **Hot Water** 온수 (faucet icon). The right number blinks.
2. Turn the **Dial** while it blinks (30–60 °C). It saves by itself.

**40–45 °C** is comfortable for a shower. Higher temperatures can burn — test the water before stepping in.

### Going out for the day

1. Press **Away** 온수전용·외출.
2. Heating pauses (the boiler only protects the pipes from freezing). Hot water still works.
3. When you are back, press **Away** again.

Please use **Away** instead of turning the Power off in cold weather.

### Too warm?

1. Press **Heating** 난방.
2. Turn the **Dial** down below the current temperature (left number). The heating stops by itself.

Screen completely dark? Press **Power** 전원 once.

### ⚠ Safety

Hot water can reach 60 °C — check it before showering, especially for children. Don't sleep directly on a very hot floor: long use at a high floor setting (55 °C+) can cause low-temperature burns.

### Not used here

**Quick Hot Water** 빠른온수 is not available in this home. **Schedule** 예약 and the side **Light / Sound** button are not needed.

Still stuck? Please message your host.

Stay warm & enjoy your stay!

# Electric Cooktop Guide

Radiant (highlight) cooktop with touch controls

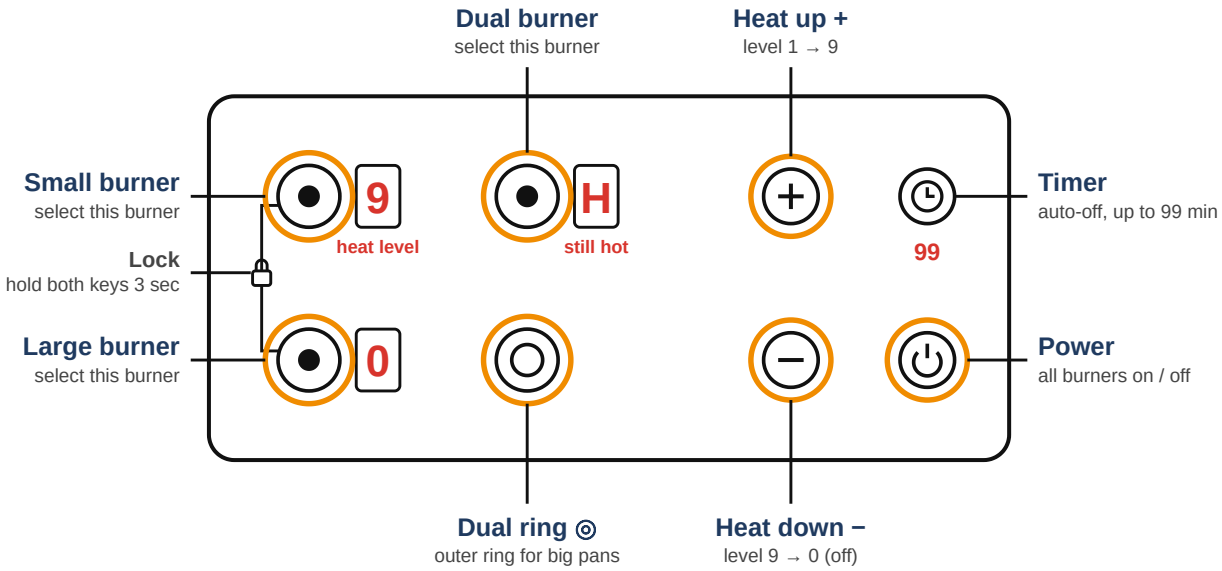

DWHL3-889KQ

Touch the symbols lightly with a dry finger

## WARNING — DO NOT USE ALL 3 BURNERS AT THE SAME TIME

When the **air conditioner is on, use only ONE burner.** Using too much power at once can trip the breaker and **cut the electricity in the whole apartment.**

## 1 Touch controls — on the front edge of the glass top

## 2 How to cook — just follow the steps

### Start cooking

1. Place a flat-bottom pot on a burner.
2. Touch **Power**.
3. Touch the key of that burner — **Small**, **Large** or **Dual**. Its number blinks.
4. Touch **+** / **−** to set the heat (1–9).

If you wait too long between steps, it switches back off — just start again.

### Big pot? Use the dual burner

1. Select the **Dual burner** and set the heat.
2. Touch **Dual ring** ◎ — the outer ring also heats up for a wide pan.
3. Touch it again to go back to the small inner ring.

### Timer (auto-off)

1. Select the burner that is cooking.
2. Touch **Timer**, then **+** / **−** to set the minutes (up to 99).
3. When time is up, that burner turns off by itself.

### Turn off

1. One burner: select it and touch **−** down to **0**.
2. Everything: touch **Power**.

**H** on the display = the glass is still hot. Don't touch it until the H goes out.

## 3 Heat levels

| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
|---|---|---|---|---|---|---|---|---|

Keep warm · reheat — Soups, stews · everyday cooking — Boil water fast · stir-fry

### ⚠ Safety

The glass stays hot after cooking (**H** on the display). Never leave cooking unattended, keep children away, and don't put plastic, foil or phones on the glass.

### Good to know

- Any flat-bottom pot or pan works (no special induction pot needed).
- Keys don't respond? The **lock** may be on: hold the Small + Large burner keys together for 3 sec.
- Wipe spills only after the glass has cooled.

Still stuck? Please message your host.

Enjoy your meal!

# Clothes Dryer Guide

Gas clothes dryer — dry spun (washed) clothes only

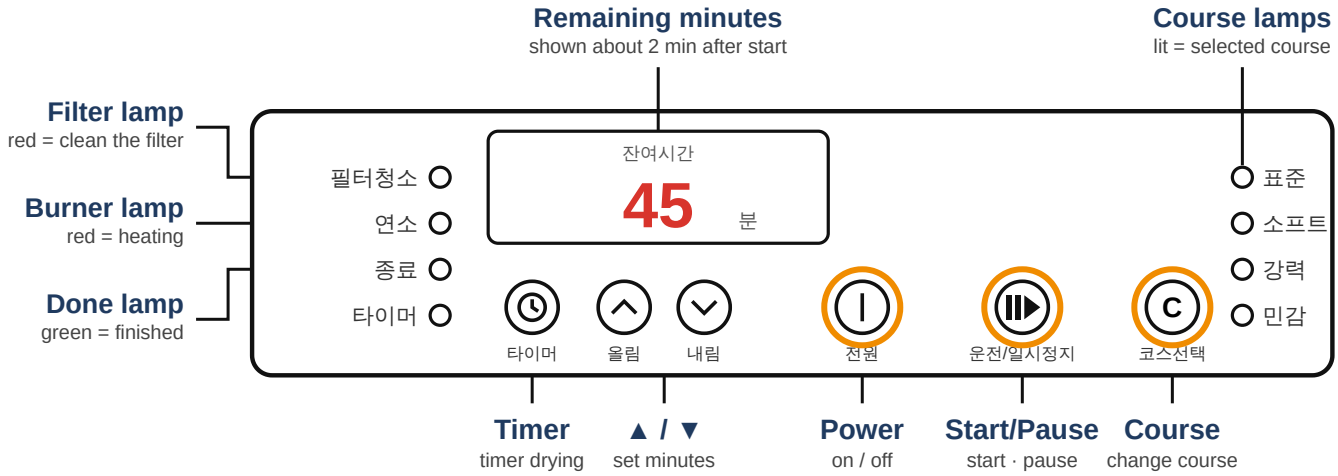

Rinnai · RD-61S

Korean in **boxes** = text printed on the dryer

## WARNING — OPEN THE WINDOW BEFORE USING THE DRYER

This is a **GAS dryer.** Always **open the window where the dryer's exhaust duct is connected** before you start it, and keep it open until drying is finished. Exhaust gas and moisture must go outside.

## 1 Control panel — below the door

## 2 How to dry

### Step by step

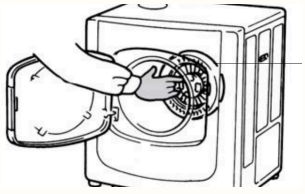

1. **Open the window** where the exhaust duct is connected.
2. Shake out the washed clothes **one by one** and put them in. Fill only **70–80%**. Close the door firmly.
3. Press **Power** 전원. "Standard + Soft" lights up.
4. Press **Course** 코스선택 to choose a course (see right). Skip this for everyday clothes.
5. Press **Start/Pause** 운전/일시정지. The Burner lamp turns red — it's heating.
6. It beeps 3 times when done (**Done** lamp green). Take the clothes out.

Please don't open the door or add clothes while drying — the clothes may not dry evenly.

### Choose a course (each press moves to the next)

| | |
|---|---|
| **Standard** 표준 | Everyday clothes: underwear, socks, towels, shirts |
| **Heavy** 강력 | Thick clothes: jeans, sweaters, sweatshirts |
| **Delicate** 민감 | Thin, light clothes: lingerie |
| **+ Soft** 소프트 | After drying, it tumbles now and then (no heat) to keep clothes fluffy. Opening the door stops it. |
| **Timer** 타이머 | Press Timer, then ▲ / ▼ to set 5–80 min. |

### Clean the lint filter — after every load

1. Hold the filter in the drum by its 4 holes and pull it out.
2. Brush off the lint gently.
3. Push it back in firmly.

A full filter makes drying much slower and lights the red **Filter** lamp.

### Do not put in

- Wool, silk, leather, lace
- Items with rubber or foam (sponge), plastic
- Blankets, duvets, electric blankets
- Shoes, bags, anything with a **"do not tumble dry"** label

### ⚠ Safety

This is a **gas** dryer. The drum, door and clothes are hot right after drying. If you smell gas, don't press any buttons — open the windows and message the host right away.

### If it stops with a blinking number

- **05 · 32 · 90** → clean the lint filter, wait 10 min, then start again.
- **11 · 12** or anything else → gas supply problem: please message the host.
- Won't start? Check the door is closed, then press Power and Start/Pause.

Still stuck? Please message your host.

Enjoy your stay!

## 2 How to

### ❄️ Cool the room

1. Press **Power**.
2. Press **Mode** 운전선택 until **Cool** shows.
3. Set the temperature with ▲ / ▼ — **24–26 °C** is comfortable.

Fan speed on **Auto** is the quietest choice. Keep windows closed.

### 💧 Humid day? Dehumidify

1. Press **Mode** 운전선택 until **Dehumidify** (drop icon) shows.
2. It removes moisture with gentle cooling.

**Air flow** 풍향 — point the air away from your bed while sleeping.

⚡ While the AC is on, **use only ONE cooktop burner.** Too much power at once can trip the breaker and cut the electricity in the whole apartment.

### When you go out

Please press **Power** to turn the AC off when you leave the room, and close the windows while it runs.

### Not working?

- No response → check the remote's batteries (battery icon on the display).
- Point the remote at the indoor unit. Changes take a few seconds.

Still stuck? Please message your host.

Stay cool & enjoy your stay!

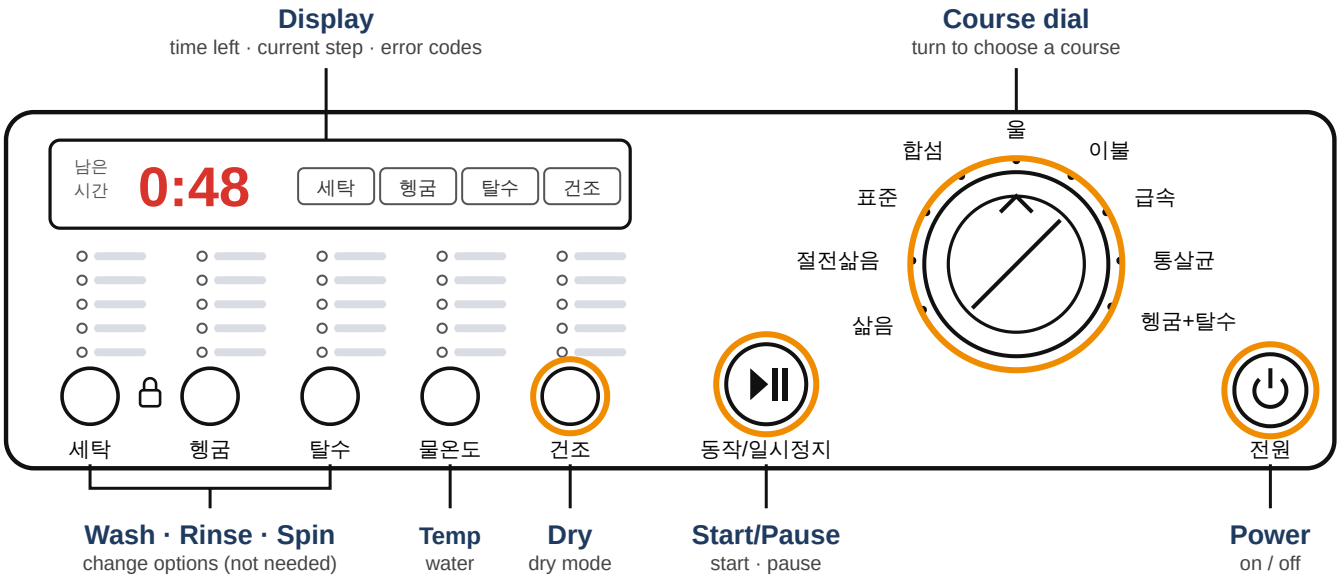

# Washing Machine Guide

Front-load washer with drying function

LG TROMM · WD-TR101P

Korean in **boxes** = text printed on the washer

## 1 Control panel — highlighted = buttons you will use

## 2 How to wash

### 🧺 Wash

1. Put the laundry in and close the door firmly.
2. Pull out the detergent drawer and add detergent to the **main wash** slot — about **20 g (1 scoop)**. Fabric softener up to the MAX line only.
3. Press **Power** 전원.
4. Turn the **Course dial** — **Standard** 표준 for most laundry.
5. Press **Start/Pause** 동작/일시정지. The door locks and water comes in.

**"End"** on the display = finished. Too much detergent makes foam and slows the wash.

### Courses (Korean on the dial)

| | |
|---|---|
| **Standard** 표준 | Everyday cotton laundry |
| **Synthetics** 합섬 | Polyester, mixed fabrics, outdoor wear |
| **Quick** 급속 | Small, lightly soiled loads, towels |
| **Wool** 울 | Washable wool & delicates (no drying) |
| **Bedding** 이불 | Blankets with a hand-wash label (no drying) |
| **Rinse+Spin** 헹굼+탈수 | Rinse and spin only |
| **Boil · Tub clean** | 삶음 절전삶음 통살균 not needed |

### ♨️ Wash + dry, or dry only

1. **Wash + dry:** choose the course, then press **Dry** 건조 before Start. **Dry only:** Power → **Dry** 건조 (no detergent).
2. Each press of Dry: **Normal** → **Strong** → **Time** (30–150 min) → off → **Low temp** → **Iron-dry**.
3. Press **Start/Pause**.

Dry at most **6 kg** (about half the drum). Not on Wool / Bedding. The drum and door are hot right after drying.

### ➕ Forgot something?

1. Press **Start/Pause**.
2. When the door-lock lamp goes off, open the door and add the item.
3. Close the door and press **Start/Pause** again.

The door stays locked while spinning, while there is a lot of water, or when the water is hot (45 °C+). Never force it open.

### 🚫 Do not tumble-dry

Wool, leather, silk, lingerie, tights, shoes, bags, items with sponge or foam, electric blankets, and anything with a **"do not tumble dry"** label.

### Messages on the display

- **dE** → close the door firmly, then Start/Pause.
- **UE** → laundry is lopsided: spread it evenly.
- 🔒 lit, buttons don't work → hold **Wash + Rinse** 세탁 헹굼 together for 3 sec.
- **IE · OE · dHE** or others → please message the host.
